**1. NATURE OF OPERATIONS, CONTINUANCE OF OPERATIONS AND GOING CONCERN**

Nevada Exploration Inc. (the “Company” or “NGE”) was incorporated on April 6, 2006 under the Canada Business Corporations Act and on February 5, 2015 the Company was incorporated pursuant to the British Columbia Business Corporation Act. The Company is in the business of acquiring and exploring mineral properties.

The Company is listed on the TSX Venture Exchange (“TSX-V”) under the trading symbol “NGE” and on the OTCQB marketplace under the trading symbol “NVDEF”. The Company’s head office is located at Suite 1400 - 885 West Georgia Street, Vancouver, BC V6C 3E8. The Company’s registered and records office is located at 700 West Georgia St., 25<sup>th</sup> Floor, Vancouver, BC V7Y 1B3.

These condensed consolidated interim financial statements are authorized for issue on behalf of the Board of Directors on March 22, 2022.

Continuance of operations and going concern

These condensed consolidated interim financial statements have been prepared on a going-concern basis which presumes the realization of assets and discharge of liabilities in the normal course of business. The financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The Company’s continued existence is dependent upon the preservation of its interests in the underlying properties, the discovery of economically and recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise additional financing, or alternatively upon the Company’s ability to dispose of its interests on an advantageous basis. The Company has not produced revenues from its exploration activities and does not have a regular source of cash flow. The Company will periodically have to raise funds to continue operations and, although it has been successful thus far in doing so, there is no assurance it will be able to do so in the future. The Company estimates that it will need additional capital to operate for the upcoming year. These material uncertainties cast significant doubt on the Company’s ability to continue as a going concern.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company’s title. Property title may be subject to unregistered prior agreements, unregistered claims and noncompliance with regulatory and environmental requirements.

**2. SIGNIFICANT ACCOUNTING POLICIES**

**Statement of compliance**

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting (“IAS 34”), as issued by the International Accounting Standards Board (“IASB”) and interpretations issued by the IFRS Interpretations Committee (IFRICs). Accordingly, they do not include all of the information required for full annual financial statements by International Financial Reporting Standards (“IFRS”) for complete financial statements for year-end reporting purposes. These condensed consolidated interim financial statements should be read in conjunction with the Company’s financial statements for the year ended April 30, 2021, which have been prepared in accordance with IFRS as issued by the IASB.

The accounting policies applied by the Company in these condensed consolidated interim financial statements are the same as those applied by the Company in its most recent annual audited consolidated financial statements as at and for the year ended April 30, 2021 as filed on SEDAR at [www.sedar.com](http://www.sedar.com).

**8. RESOURCE PROPERTIES (cont'd...)****Kelly Creek (KC)**

The Company has combined its former Hot Pot Project into its Kelly Creek Project, the combination of which is now together referred to as the Kelly Creek Project.

As of January 31, 2022, the Company's Kelly Creek Project consists of:

- unpatented mining claims held directly by the Company;
- unpatented mining claims leased by the Company from Genesis Gold Corporation (Genesis") through a Mining Lease and Option to Purchase Agreement (the "Genesis Agreement); and
- private land leased by the Company under a Mining Lease Agreement (the "Hot Pot Lease").

The Company entered into the Genesis Agreement on October 1, 2009 and as amended on December 29, 2014, August 25, 2015 and July 25, 2019, to acquire a 100% interest in the Genesis's Hot Pot claims. Under the Genesis Agreement, the Company is the Operator and has the option to purchase 100% of the Genesis claims for 100,000 common shares (issued) and USD\$1,500,000, subject to a 1.5% Net Smelter Return Royalty ("Royalty"), and the following advance royalty payments which have been paid on time:

- During the year ended April 30, 2015, the Company issued 80,000 Common shares, plus agreed to pay \$10,000 USD to satisfy the October 1, 2014 payment (paid).
- On August 25, 2015, the Company and Genesis agreed to amend the terms of the Genesis Agreement to reduce the annual payments due on October 1, 2015 (paid); October 1, 2016 (paid); and October 1, 2017 (paid), from \$50,000 USD to \$10,000 USD, subject to each party's rights under the Genesis Agreement.
- On July 25, 2019, the Company and Genesis agreed to amend the terms of the Genesis Agreement to reduce the annual payment due on October 1, 2019 from \$50,000 USD to \$Nil. Additionally, the annual payments due October 1, 2020 to October 1, 2022 have been reduced from \$50,000 USD to \$20,000 USD, whereby the Company may elect to deliver up to half of this payment in common shares of the Company. The payments due October 1, 2020 and October 1, 2021 were paid by Austin.

The Company entered into the Hot Pot Lease on September 16, 2004, for an initial term of 10 years, as amended on May 29, 2009, September 2, 2011, February 25, 2016, February 16, 2017, and June 8, 2020. Any mineral production on the project is subject to a 3% Net Smelter Return Royalty (the "NSR") to the property owner, subject to the Company's right to reduce the Royalty from 3% to 2% for \$2,000,000 USD. Under the February 25, 2016, amendment, the term of the Hot Pot Lease was extended to 20 years, until September 16, 2024. Under the February 16, 2017, amendment, additional lands were added to the Hot Pot Lease, subject to the following payments:

Subsequent Anniversaries (September 16 <sup>th</sup> annually)	\$ 30,000 USD	

On July 8, 2020, the Company entered into an Exploration and Option to Enter Joint Venture Agreement (the “Agreement”) with Austin American Corporation (“Austin”), for an earn in and joint venture agreement on its district-scale Kelly Creek Project (the “Project”) within the Kelly Creek Basin in north-central Nevada. Under the Agreement, Austin has the right to earn a 51% interest in the joint venture by spending \$5,000,000 over four years, with the election to then earn an additional 19% by delivering a prefeasibility study. Due to delays and ongoing uncertainty surrounding Covid-19, the Company and Austin agreed to extend all deadlines under the Agreement by 12 months and to reduce the exploration expenditures required during the first year of the Agreement by 25%, which effectively reduces the exploration expenditures required to earn a 51% interest in the Project from \$5,000,000 to \$4,750,000. Under the amended Agreement, to earn a 51% joint venture interest in the Project, Austin must spend \$4,750,000 in exploration expenditures, as follows (the “Earn In”):

- \$750,000 in aggregate by September 1, 2022, which represents a firm commitment,
- \$1,750,000 in aggregate by June 1, 2023,
- \$3,250,000 in aggregate by June 1, 2024, and
- \$4,750,000 in aggregate by June 1, 2025.

During the Earn In, Austin will be the operator of the Project. Upon completing the Earn In, Austin has a one-time option to elect to earn an additional 19% interest in the joint venture, for a total of 70% (the “Additional Option”), by spending \$1,500,000 per year during the first three years of the Additional Option, and by delivering a prefeasibility study prior to June 1, 2029. At the Company’s election, which must be made within 120 days of the approval by the joint venture of a feasibility study, Austin will be obligated to provide the Company’s portion of any debt financing or arrange for third party financing of the Company’s portion of any debt financing required to construct a mine on the Project described in the feasibility study in consideration for the transfer by the Company to Austin of a 5% interest in the joint venture. If a party is diluted to a 10% interest in the joint venture, its interest will be converted to a 10% net profits interest.

Additionally, Austin is responsible for the payment of all annual claim maintenance fees as well as annual Hot Pot and Genesis lease payments as detailed above, as long as the Agreement is maintained.

The majority of the Company’s mineral interests at Kelly Creek are subject to a 1.25% NSR to Royal Gold, Inc.

**Awakening (AW)**

As at January 31, 2022, the Company’s Awakening Project consists of unpatented mining claims held directly by the Company.

- c) Total office lease payments of \$8,904 ending May 31, 2022.

**14. FINANCIAL RISK MANAGEMENT**

**Fair value**

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

Short term investments are measured at level 1 of the fair value hierarchy. The fair value of short-term investments is measured at the market price of the common shares held at the measurement date. The carrying value of cash and cash equivalents, other receivables, deposits and bonds, finance lease obligations, accounts payable and accrued liabilities approximate their fair value because of the short-term nature of these instruments.

14. FINANCIAL RISK MANAGEMENT (cont'd)

**Financial risk factors**

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

*Credit risk*

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and cash equivalents and deposits and bonds. Management believes that the credit risk concentration with respect to cash and cash equivalents, deposits and bonds is remote as it maintains accounts with highly rated financial institutions.

*Liquidity risk*

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure and financial leverage. It also manages liquidity risk by continuously monitoring actual and projected cash flows. The Board of Directors reviews and approves the Company's operating and capital budgets, as well as any material transactions out of the normal course of business.

As at January 31, 2022, the Company had a cash and cash equivalent balance of \$975,049 (April 30, 2021 - \$1,026,796) to settle current liabilities of \$43,570 (April 30, 2021 - \$502,576). The Company believes that there is minimal liquidity risk as at January 31, 2022.

*Market risk*

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates and equity prices.

(a) Interest rate risk

The Company is exposed to interest rate risk to the extent that the cash and cash equivalents maintained at the financial institutions is subject to floating rate of interest. The interest rate risks on cash and cash equivalents, deposits and bonds and on the Company's finance lease obligations are not considered significant.

(b) Foreign currency risk

The Company is exposed to financial risk arising from fluctuations in foreign exchange rates and the degree of volatility of these rates. A significant portion of the Company's expenses is denominated in US dollars. Consequently, certain assets, liabilities and operating expenses are exposed to currency fluctuations. The Company does not use derivative instruments to reduce its exposure to foreign currency risk. Net assets denominated in foreign currency and the Canadian dollar equivalents as at January 31, 2022 are as follows:

	USD	CDN
Current assets	\$ 1,491,862	\$ 1,897,499
Non-current assets	154,028	195,908
Current liabilities	(3,481)	(4,426)
	\$ 1,642,409	\$ 2,088,981

Based on the above net exposures as at January 31, 2022, and assuming all other variables remain constant, a 10% change in the value of the US dollar against the Canadian dollar would result in an increase/decrease of USD\$164,241 in comprehensive loss.

**15. CAPITAL MANAGEMENT**

In order to maintain its capital structure, the Company, is dependent on equity funding and, when necessary, raises capital through the issuance of equity instruments, primarily comprised of common shares and incentive stock options. In the management of capital, the Company includes the components of equity as well as cash and cash equivalents.

The Company prepares annual estimates of exploration expenditures and monitors actual expenditures compared to the estimates to ensure that there is sufficient capital on hand to meet ongoing obligations. The Company's investment policy is to invest any excess cash in highly liquid short-term deposits with terms of one year or less and which can be liquidated after thirty days without interest penalty. The Company currently has insufficient capital to fund its exploration programs and is reliant on completing equity financings to fund further exploration. The Company is not subject to any externally imposed capital requirements.

There were no changes in the Company's approach to capital management during the period ended January 31, 2022.

**16. EVENTS AFTER THE REPORTING PERIOD**

Subsequent to January 31, 2022, 2,000,000 stock options were granted to a consultant of the Company. The stock options granted have an exercise price of \$0.10 and expire 5 years after the grant date.

On March 21, 2022, the Company announced that it had signed a Letter of Intent with Astro Resources NL to leverage the Company's extensive exploration database to generate and advance epithermal gold projects in a million-acre area of interest in northern Nevada.
